

# Green Mountain Fibers & Yarn News

December 2015

It's hard to believe that 2015 is nearly over. It's just not in keeping with the weather or my internal time clock. I did a very dismal job this year of keeping you all informed about things happening in the shop. I promise to do better in 2016 and try to get back on track for a monthly enews. We have lots of plans in the works for classes and events that you won't want to miss.

Speaking of things you won't want to miss... Battenkill Fibers has put together a knitting tour of Iceland for September/October 2016. You can see the itinerary on <http://www.battenkillfibers.com/events.asp>. If you register for this amazing trip, please let Mary Jeanne know we sent you from Green Mountain Fibers. MJ was my business partner in GMF for several years and we continue to work closely together.

Our focus in the last few months has been on keeping the shelves well stocked so that we can serve your fiber needs. We've added Juniper Moon to our offerings and have also kept the Malabrigo shelf full! There are also new products from Plymouth and Knitting Fever, supplier of Noro and Ella Rae.

If you're still in the market for quick knits, I can tell you that GiWna Chunky, Plymouth Mega, and Alpaca Grande can give you a hat in less than 2 hours on size 11 or 13 needles. Even working full time (and then some) I've done seven myself since Saturday (2 more added since yesterday morning) and need just one more to fill the grab-bag of knitted goodies!

We'll be open on Christmas Eve day until 5:30 for all our last minute shoppers; closed Christmas Day and New Year's Day for inventory. We'll be open for sit-n-knit as usual on Sunday 12/27 and Monday evening 12/28. If you find yourself with a little extra time this holiday season and would like to join us, we'd love to see you.

Have a very Merry, Happy, Joyful Holiday Season!  
Kathleen, George and Louisa
